This balance was further segmented into \$374M in pension-related funds (Employee Withholdings and Pay-Go Charges), \$142M in Central Government non-TSA funds (lottery-related funds and other funds held and administered by central government agencies), and \$64M held TSA Sweep Accounts that collect income and completely pass through to TSA on a daily basis (includes General Collections Posts, Agency Collections Posts, and SUT). As further set forth in the Bank Account Balance Report, processes are currently in place to continue evaluating the accounts, including analyzing the cash inflows and outflows and reviewing legal restrictions relative to funds deposited into the bank accounts.*

## **Introduction**

- *Enclosed is the weekly Treasury Single Account ("TSA") cash flow report, supporting schedules and Liquidity Plan to actual variance analysis.*
- *TSA is the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed.*
- *Beginning April 2016, TSA receipts are deposited in a commercial bank account rather than the Government Development Bank for Puerto Rico ("GDB").*
- *Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances held in custody by the Secretary of Treasury for the benefit of the Government fiduciary funds, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.*
- *Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.*
- *Federal funds related to disaster relief for hurricanes Irma and Maria are deposited in a separate bank account overseen by the Government Authorized Representative ("GAR"), and transferred to the TSA only after admissible disbursements (per approved Project Worksheets) have been made. These inflows to the TSA will be captured on the Federal Funds Receipts (Schedule C); outflows will be captured on the Vendor Payments (Schedule E).*
- *Data for TSA inflows/outflows is reported from various systems within the Department of Treasury of Puerto Rico ("DTPR"):*
  - Cash Flow Actual Results - Source for the actual results is the TSA Cash Flow.*
  - Schedule A - Collections - Source for collections information is the DTPR collections system.*
  - Schedule B - Agency Collections - Source for the agency collections is DTPR.*
  - Schedule C - Federal Fund Receipts - Source for the federal funds receipts is DTPR.*
  - Schedule D - Net Payroll - Source for net payroll information is the DTPR Rhum Payroll system.*
  - Schedule E - Vendor Payments - The source for vendor payments is the Bank checks paid report and a report from the DTPR PRIFAS system.*
  - Schedule F - Other Legislative Appropriations - Source for the other legislative appropriations is DTPR.*
  - Schedule G - Central Government - Partial Inventory of Known Short Term Obligations - Sources are DTPR.*
- *Data limitations and commentary:*
  - The government has focused on the seven schedules above for which access to reliable, timely, and detailed data is available to support these items. The government continues to work with DTPR and other parties to access additional reliable data that would help us provide detail in the future for other line items in the Cash Flow.*

## **FY 2018 TSA Forecast Key Assumptions**

- *The FY 2018 Treasury Single Account cash flow forecast Liquidity Plan was prepared at the beginning of the fiscal year based on the approved FY 2018 Budget, was projected monthly through June 2018, and is used as the benchmark against which weekly results and variances are measured. As a result of material economic and operational changes stemming from Hurricanes Irma and Maria, DTPR is in the process of developing a reforecast of TSA cash flows to year-end. Until then, the original TSA forecast will continue to serve as the measure for weekly cash flow variances.*
- *Forecast collections and disbursements through the General Fund and Federal Fund are consistent with the approved FY 2018 Budget, with the exception of payroll outlays which were forecast based on run-rate cash disbursement trends, and budget reserves which are non-cash and do not impact the TSA direct cash flows.*
- *TSA General Fund inflows are "gross" (i.e. include accrued Tax Refunds in 2018) and therefore higher than presented in the approved FY 2018 Budget, which considers General Fund revenues net of current year tax refunds. Repayment of deferred tax refunds (from CY 2016 and prior) total \$292mm; reserve for current year tax refunds (excluding garnishments) total \$456mm.*
- *Payroll outlays are based on FY 2017 run-rate disbursements, less savings measures, representing a \$298mm favorable adjustment to the approved FY 2018 Budget for the full fiscal year. Payroll is presented inclusive of segregated employee contributions (\$349M for the year). Payroll is disbursed through the TSA on a bi-weekly basis, approximately on the 15th and 30th of each month.*
- *Pensions reflect the implementation of the pay-as-you-go model in FY 2018. Retirement system inflows represent deposits from municipalities and corporations net of administrative expenses. Figures also include ERS / TRS / JRS asset sales (\$390M), which occurred in July 2017.*
- *The Liquidity Plan assumes collections and outlays of Federal Funds are equal in FY 2018 (zero net cash impact), excluding potential timing impact.*
- *Clawback funds set aside prior to June 2016 (approx. \$146mm held at BPPR accounts and \$144mm held at GDB) are considered restricted cash and therefore excluded from the projected cash balance.*
- *The Liquidity Plan assumes \$592mm of Reconciliation Adjustment as per the approved FY 2018 Budget and March 13 certified Fiscal Plan, which is projected separately from supplier payments and distributed evenly over 12 months. No further provision has been made for potential contingent liabilities against the government.*
- *The Liquidity Plan assumes that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA for operational purposes, totaling approx. \$316mm in incremental collections in the forecast. To date these funds have flowed, and may continue to flow, to the COFINA bank account (BNY Mellon), which will create a weekly variance from November through January.*

Executive Summary - TSA Cash Flow Actual Results for the Week Ended January 19, 2018

Key Figures as of 1/19/2018				
\$1.75bn	\$150M	\$6M	(\$46M)	(\$125M)
Bank Cash Position	Weekly Cash Flow	Weekly Variance <sup>(a)</sup>	YTD Net Cash Flow	YTD Net Cash Flow Variance <sup>(a)</sup>

**Key Takeaways as of 1/19/2018:**

Collections

- The following revenue streams have largely been resistant to negative effects stemming from Hurricane María:

<i>Corporate Income Tax <sup>(1)</sup></i>	<i>Alcoholic Beverages Tax</i>	<i>Motor Vehicles Tax / Fees</i>	<i>Cigarette Tax</i>
<i>Non Resident Withholdings</i>	<i>Petroleum Import Tax</i>	<i>Rum Tax</i>	<i>Others</i>

*(1) The full impact of Hurricane María on Corporate Income Tax collections may not be completely realized yet, as negative effects on Corporate Income Tax collections may lag behind other revenue streams.*

- The following revenue streams have been negatively impacted by effects stemming from Hurricane María, and are currently under assessment to determine how much of the negative effects are temporary and will reverse in the short term vs. how much will result in permanent variance and FY2018 collection shortfall:

<i>Individual Income Tax Sales &amp; Use tax</i>	<i>Act 154 Collections Agency Collections</i>	<i>Federal Fund Receipts Others</i>
--	---	-------------------------------------

**Notable variances <sup>(a)</sup> for the week ended January 19, 2018:**

<b>-\$32M</b>	<b>Inflow - Federal Fund Receipts</b>	Primarily due to the timing of Department of Health receipts for the Medicaid Program (\$7M received week ended 1/19, compared to \$48M forecast). This variance will reverse in the subsequent week, as \$150M was received for the Medicaid Program on 1/24 (Temporary).
<b>+\$30M</b>	<b>Inflow - General Collections</b>	Mainly due to +\$25M variance in Petroleum & Gas Tax Collections (consistent with prior periods as a positive variance) and +\$32M in Nonresident Withholdings (partially offsets previous week's -\$40M Nonresident Withholdings variance), partially offset by -\$8M variance in Act 154 collections and others (Mix of Temporary & Permanent).

**Notable YTD variances <sup>(a)</sup> as of January 19, 2018:**

<b>-\$573M</b>	<b>Inflow - Federal Fund Receipts</b>	YTD variances in federal fund receipts are partially offset by variances in federally funded vendor disbursements, federal appropriations to ASES, and disbursements for Nutritional Assistance (Temporary).
<b>-\$256M</b>	<b>Inflow - Sales &amp; Use Tax</b>	YTD permanent negative variance is -\$256M and is expected to grow to -\$316M by the end of January (Permanent).
<b>-\$200M</b>	<b>Inflow - General Collections</b>	Principally due to the negative impacts caused by Hurricane María (Permanent, with exception of a few timing variances). The largest YTD collections variances are -\$151M in individual income tax collections, -\$131M in Act 154 collections, and +\$127M in Petroleum & Gas Tax collections.
<b>+\$75M</b>	<b>Outflow - Tax Refunds</b>	Mainly due to \$27M in Senior Citizen tax refunds, originally forecast to be refunded in November and December, now projected to be refunded in February and March 2018 (Temporary). Remaining +\$48M variance is also timing related (Temporary).
<b>+\$296M</b>	<b>Outflow - Reconciliation Adj.</b>	Potential utilization of the Reconciliation Adjustment deferred to later this fiscal year (Potentially Permanent).
<b>+\$506M</b>	<b>Outflow - Vendor Disbursements</b>	Vendor invoice entry has been hindered due to technical issues stemming from Hurricane María. Throughout the month of December, however, vendor disbursements returned to pre-María averages as payment processing improved. A portion of the YTD variance is expected to reverse throughout the course of the year as technical issues continue to improve. January vendor disbursement trends are also being assessed to determine how much variance is expected to reverse throughout the rest of FY2018 (Partially Temporary).

**Key Cash Flow Risks to Liquidity Plan through June 30, 2018:**

<b>Sales &amp; Use Tax</b>	The Liquidity Plan includes -\$316M in collections that will not be received into the TSA. These funds have flowed, and will continue to flow, to the COFINA bank account (BNY Mellon). Though this amount of SUT will be collected, it will not be available to the TSA for operational purposes. Additionally, lower SUT collections due to the impact of the Hurricanes on collections may approximate -\$366M by fiscal year-end, for a total variance of -\$682M compared to the Liquidity Plan forecast.
<b>Corporate Income Tax</b>	Though Corporate Income Tax collections have been fairly resistant to the negative effects of Hurricane María to date (\$728M YTD actual collections, +\$3M YTD Variance), the full impact of Hurricane María may not be completely realized yet, as negative effects may lag behind other revenue streams. Corporate Income Tax projections for 3Q and 4Q are currently being assessed to determine the total potential effect throughout the remainder of FY2018.
<b>Act 154 Collections</b>	Act 154 Collections relate to excise tax on the acquisition by multinationals of certain products manufactured or produced in whole or in part in Puerto Rico and on the acquisition of certain manufacturing services carried out in Puerto Rico. This revenue stream has been negatively impacted due to the effects of Hurricane María (-\$93M). A majority of the variance is assumed to be permanent in nature, and further deterioration (total effect being assessed) of General Fund Act 154 Collections is expected throughout the remainder of FY2018.
<b>FEMA Spend</b>	FEMA cost share may impact working capital due to the timing of the spend / reimbursement cycle. Though FEMA cost share will be funded by General Fund reserves that were excluded from the Liquidity Plan Forecast (\$307M), the lag between spend and reimbursement may create temporary cash variances in the TSA.
<b>PREPA/PRASA</b>	Approval of a loan in the amount of \$550M to PREPA from the TSA is scheduled to be heard in court on February 7, 2018. PRASA might also potentially require funds to be transferred from the TSA to fund their ongoing liquidity needs, which is an additional risk against the Liquidity Plan. The total potential TSA funding need is currently being assessed.

**Key Cash Flow Opportunities to Liquidity Plan through June 30, 2018:**

<b>Petroleum &amp; Gas Taxes</b>	Strong Petroleum & Gas tax collections could continue throughout Q3 and Q4, providing additional positive variance in collections. Since Hurricane María, +\$116M variance (+\$127M FY2018 YTD) in this revenue stream has partially offset other revenues that were negatively affected due to the Hurricanes.
<b>Reconciliation Adjustment</b>	Currently the Reconciliation Adjustment is being deferred until later this fiscal year. However, the Reconciliation Adjustment might not be fully utilized, which would allow for a cash opportunity against the Liquidity Plan of +\$592M. This opportunity might be partially offset by non-budgeted Title III spend (which may approximate -\$200M) and the set of up The Municipal Recover Fund (potentially -\$100M). Total adjusted cash opportunity against the Liquidity Plan could be +\$292M.

Weekly favorable variance was partially offset by -\$8M variance in Act 154 collections and others. Variances are a mix of timing related variances and permanent variances. Other revenue streams were in line with forecast for the week ended 1/19. The largest YTD collections variances are -\$151M in individual income tax collections, -\$131M in Act 154 collections, and +\$127M in Petroleum & Gas Tax collections.

Remaining variance is due to timing.
5	Rum Tax		44,981	-	-	-	152,481	107,500	44,981	12 Weekly variance partially offsets previous week's YTD timing variances.

Remaining weekly variance is also timing related and is expected to reverse throughout January.
7	Subtotal - General & Special Revenue Fund Inflows		(\$551,228)	\$282,420	\$266,953	\$15,467	\$5,071,135	\$5,606,896	(\$535,761)	24 YTD Pension PayGo outlays variance is offset by a reduction in contributions from pension systems (line 8), as there is no corresponding pension inflow as included within the original forecast. Remaining YTD variance is timing related.
<b>Retirement System Inflows</b>										
8	Contributions From Pension Systems (b)		(209,317)	-	-	-	-	209,317	(209,317)	25 Weekly variance is timing related, and will be partially offset next week by a \$137M appropriation to ASES executed on 1/25. YTD variance is driven by lower-than-projected healthcare premiums & claims costs at ASES, and therefore lower federal matching funds flowing through the TSA. A portion of the YTD variance is permanent, but it is offset by associated federal fund receipts variance.
9	Pension System Asset Sales		-	-	-	-	390,480	390,480	-	27 Variance is due to timing and will reverse next week; appropriation executed on 1/18 that was originally projected to occur on 1/26.

13	Interest earned on Money Market Account		2,590	315	-	315	2,905	-	2,905	34 Weekly and YTD variances are due to timing. \$27M of the YTD variance is due to Senior Citizen tax refunds, originally forecast to be refunded in November and December, now projected to be refunded in February and March 2018. Timing of refunds corresponds with adjusted filing dates due to the impact of Hurricane Maria. Remaining variance is due to timing.
14	GDB Transactions		(28,766)	-	-	-	-	28,766	(28,766)	36 YTD variance is offset by GDB Transactions (relates to legacy debt service deposit agreement) variance in inflows (line 14), with remaining variance due to timing.

- (a) The numbers presented represent a bottom-up build of invoices at the government agency level, which should not be considered to be indicative of total Accounts Payable for the central government. This is due to issues surrounding invoice entry that has hindered the timely cadence of recording invoices, which was made worse by the impact of the Hurricanes.
- (b) Refers to checks issued but kept in vault. Due to control processes implemented this fiscal year, it is uncommon for there to be a material checks in vault balance, as now the Department of Treasury has greater control over the approval and authorization of checks before they are issued.

- (e) Pre-recorded AP is related to other agencies out of scope of BDO that independently enters invoice data into a Live AP module prior to invoices being approved for payment. The top 5 agencies in pre-recorded AP outside the BDO scope comprised 85% of the outstanding AP in this category. These agencies are, in descending order; State Elections Commission, Vocational Rehabilitation, Industrial Commission, National Guard, and State.
- (f) Increase in Recorded AP due to other government entities can be primarily attributed to concerted effort amongst agencies to record and accrue for amounts due to PREPA / PRASA.
